

“Hitting the Target – Using Tomotherapy as a cancer treatment”

Members of the Oncology Nurses Group, Allied Health Professionals Oncology Group and their colleagues are invited to a Brisbane Oncology Nurses Group education forum

Guest speaker: Ms Allison Dry
Senior Radiation Therapist Education
Royal Brisbane and Women’s Hospital

The objectives for this session:

- Explain ionising radiation and its effects on living matter
- Distinguish between the methods of administering radiation therapy in terms of their advantages and disadvantages
- Explain the development of Tomotherapy
- Discuss the application of Tomotherapy in clinical practice using case histories

This forum is suitable for any health professional wishing to improve their knowledge of Tomotherapy as a cancer treatment
